Barrel Bands

The Gentry Barrel Band mounts the sling swivel stud on the barrel for that classic look, while leaving more room for the shooter's forward hand. The outside diameter features a double contour to blend perfectly with no sharp edges to catch or snag. The inside dimension is bored and has a slight taper, allowing the installer to fine tune the barrel band's location while matching the contour of the barrel.

Finishes available:

- Standard blued finish
- Matte blued finish
