SCI to Relocate Business, Member Services Office from Tucson to San Antonio

October 31, 2023

This week, Safari Club International (SCI) announced its decision to relocate its North American office for business and member services from Tucson, Arizona, to San Antonio, Texas, in 2024. This move is a watershed moment in SCI's history and heralds a new era of growth as we continue to be First for Hunters and champions of wildlife conservation across the nation and around the world.

SCI's decision to relocate its Tucson office to San Antonio will enhance its operational efficiency while allowing for a greater strategic focus on SCI's core mission. San Antonio will provide SCI with a more central geographic location for its stakeholders and membership while simultaneously allowing for even closer collaboration with the advocacy staff of SCI's Armand and Mary Brachman Advocacy Center – the "Hunters' Embassy" – in Washington, D.C.

"I am excited to make this announcement that reflects months of thoughtful deliberation and discussion," said **SCI CEO W. Laird Hamberlin**. "This move will provide SCI with a wide range of benefits, including superior market conditions, the most hunter-friendly political environment, and an advantageous location for coordination with the widest variety of key partners. We look forward to SCI's bright future in San Antonio!"
